# SERENE LIFE

## WINNING COMBINATION

**Citroën Advanced Comfort® seats** The seating and dynamic comfort have been enhanced to ensure a more enjoyable driving experience, even on longer journeys. These seats provide exceptional comfort, turning every trip into a smooth and relaxing experience.

**Citroën Advanced Comfort® suspensions** absorb road imperfections to provide a flying carpet sensation. It's a major advance on traditional suspension systems, offering a calmer driving experience and simplifying life on board.

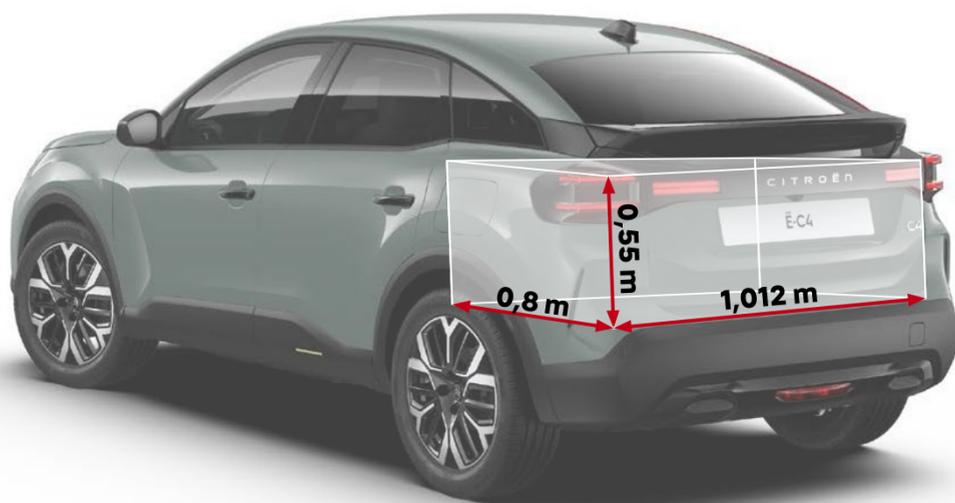

## SPACE ON BOARD

The new C4 embodies the very essence of a versatile compact saloon, with practical exterior dimensions and a spacious interior. C4 comfortably accommodates three passengers in the rear.

## GENEROUS BOOT

With the 380 liters boot, Citroën C4 is right at the middle of his segment. It also includes a two-position boot floor for a maximum volume of 1,250 litres with the rear seat folded down.

# MAXIMISE YOUR HYBRID JOURNEY

## **COMBINE EFFICIENCY AND VERSATILITY**

Start off quietly using only electric power and let the petrol engine start effortlessly if more power is needed. The Hybrid technology combines two different energies for remarkable driving comfort and tremendous efficiency.

## **MAKE SAVINGS**

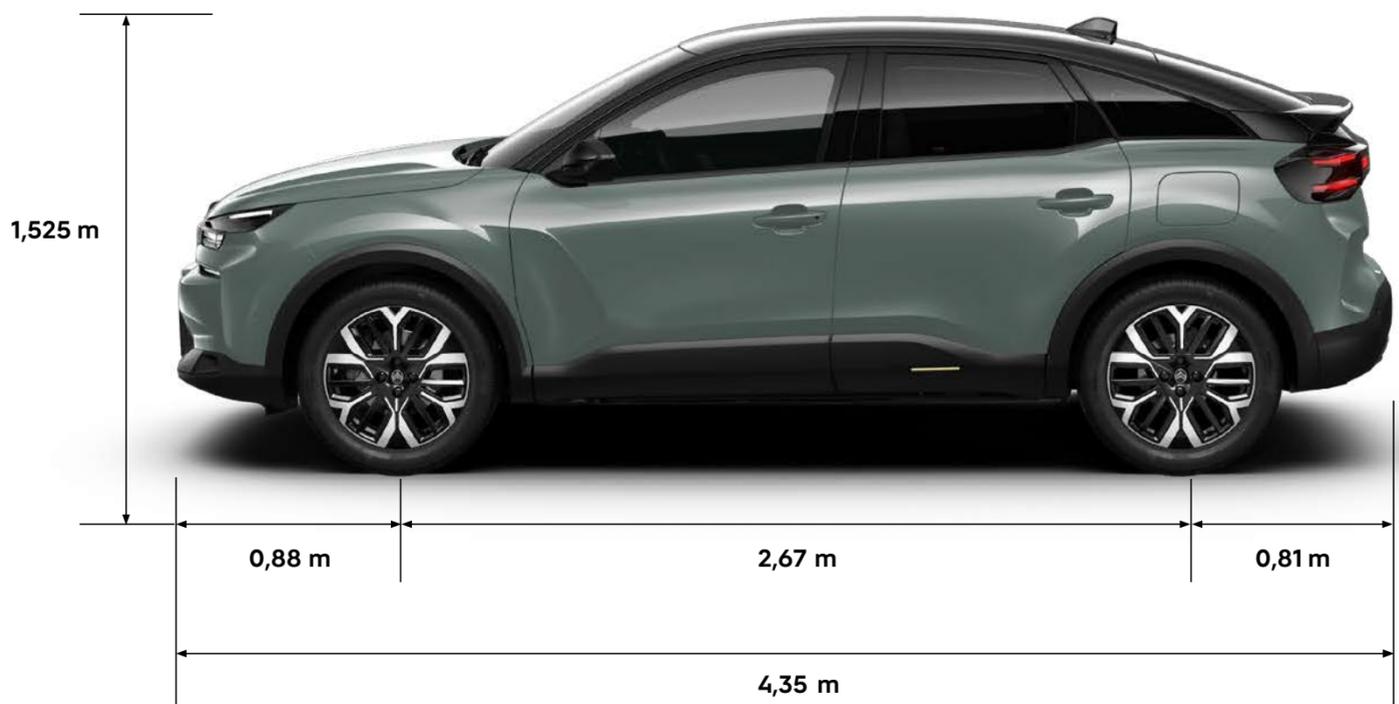

With up to 50% electric driving in urban areas, you can cut fuel consumption and CO<sup>2</sup> emissions by around 20%, helping you keep running costs in check.

## **EASY TO USE**

Hybrid technology is user-friendly and perfect for drivers seeking electric driving without external charging. The battery recharges during deceleration, and the automatic system manages both the electric and petrol engines based on driving conditions, requiring no driver intervention.
